Research Experience: <i>If applicable</i>	
Relevant Employment: <i>If applicable</i>	

Why did you choose your particular degree?

Why did you choose the University of Florida?

What philosophy guides you in your education?

If you could solve one environmental and/or global health problem, what would it be?

What do you see as the most pressing public health problems facing the world today?

How could these problems be solved?

What are your long-term career goals?
